

Henhouse Art School Covid Precautions

Thank you for booking a place on our Summer Art Sessions with Henhouse Art School. We thought we would email a few details to you before we start.

First of all I have attached a copy of our registration form, can you please complete it and return it to me by 5pm the day before the session or bring a hard copy with you on the day. For anyone that can't do that, we will have spare forms on the day but you will need to complete it outside (please bring own pen).

The venue for these summer sessions is Wade Street Church Community Room, Frog Lane, Lichfield WS13 6HL

We will be taking every safety measure necessary to keep our students safe from Covid whilst at Henhouse. Both myself and Henrietta have been fully vaccinated and have regular Covid tests.

With the rising numbers of people being infected with the virus at the moment we request if possible that students please do a home test the day before or just before coming to each session. Please do not attend Henhouse if they have tested positive or have Covid symptoms or have been in contact with anyone that has and isolate as advised by the guidelines.

Before the classes we will ask all adults to line up outside and we will invite one set of parents at a time to come in to register their child and speak to me, please wear a mask, unless exempt.

In the meantime Henrietta will provide hand-gel for the students and take them all in to start the activities.

Students will be spread out in the large room so they will be socially distanced. We will regularly sanitise our equipment and encourage students to use the hand gel. Please let us know if there are any issues with using hand gel, they can bring their own if need a special one.

We will not be providing refreshments at the moment so please provide a snack and drink.

On leaving we will send the students out to you outside.

Thank you

Celia and Henrietta
